EMERGENCY VEHICLES**

**Premier
Storage Solutions**

www.FirstPriorityGlobal.net

HISTORY

Since 1998, First Priority has been a leading manufacturer and service center of custom emergency vehicles and storage solutions. Our mission is to design creative and innovative ways for our valued customers to achieve their goals as effectively as possible. With that in mind, all of our storage solutions provide the tools and gear needed quickly and within arms reach at all times.

With both a national and international customer base, our products can be delivered to your department without hassle, shipping from one of our two manufacturing facilities.

CABINET CONSTRUCTION

To meet the specialized demands and rigorous use in the field of the emergency services, First Priority's Premier storage systems and command units are fabricated from specific materials deemed suitable for the mission required by the agencies using them. First Priority Cabinets are constructed from the time tested materials below.

- **Medium Density Overlay plywood (MDO):** The entire sub structure our cabinet systems are fabricated from special Medium Density Overlay 7 layer plywood covered with a smooth veneer overlay on both sides. This overlay forms resistance to edge splitting and provides a smooth surface for coverings such as ABS laminate or marine grade carpeting. MDO plywood meets standards of a class III fire retardant rating making it suitable for interior vehicle applications. Water absorption rate of MDO plywood is significantly less than traditional plywood types. OSB board, MDX, particle board and other types of plywood shall be unacceptable.
- **High Density Polyethylene Plastic (HDPE):** A black composite material with textured finish is used to prevent separation, chips and maximize durability. High Density Polyethylene Material is recognized for its high strength to density ration and makes it versatile in areas like cabinet doors and drawer faces.
- **Drawer construction:** Drawers are finished from the same MDO plywood mentioned above and HDPE composite facing. Slide hardware shall be stainless steel, full extension heavy duty slides. Latches shall be positive latching style. In certain cabinets, where higher weight capacity is required, drawers can be substituted with 1/8" or 3/16" aluminum trays.
- **Latches:** All door and drawer latches are "Positive" locking lever compressions latches made by Southco. These latches are designed to prevent opening while the vehicle is in motion. Each lock has a raised trigger release that creates an ergonomic release for gloved hands and is coated in a durable matte black powder coat finish for resistance to wear. Standard latches are non-locking with optional locking available.
- **Contact Adhesive specifications:** Water based, one part fast bonding adhesive designed for high temperature applications. Non flammable with zero flash point. Contains no polychloroprene chemicals. Certified to GREENGUARD for low emitting building materials. Base Acrylic emulsion with 45-51% solids content. Guaranteed bonding adhesion in temperatures up to 300 degrees Fahrenheit.
- **Edges:** Edges are protected with PVC bumper molding a minimum of 1/8" thick installed into a machined slot cut into the edge of the material to protect the edge. Edging is fastened into place by way of a barbed channel that is placed into the slotted edge. For added strength, the edging is held in place by fine wire pneumatic staples every 4-6 inches.
- **Installation:** The cabinet system must be installed with heavy duty bolts and nylon lock nuts through the floor of the vehicle or on custom mounts specific to the outlined vehicle in the specifications.

When lives are on the line...

Your emergency vehicles should be **First Priority!**

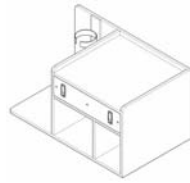

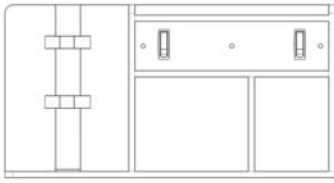

FIRE COMMAND CABINETS (FC SERIES)

Our Fire Command Cabinet line is geared toward functionality and versatility. Our cabinet systems maximize equipment storage, yet do not lose sight of your need to perform command operations. We offer a number of configurations that combine sensitive electronics with rock solid equipment storage, or our staff can custom design a unit for your specific emergency response needs.

FC-100 Series

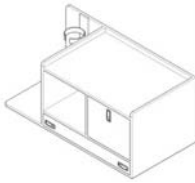

FC-100 Series Cabinets are an economical Fire Command cabinet designed to hold basic fire fighting equipment, while allowing the driver to see over the rear cabinet.

48" W x 24" D x 21" H

FC-101 | Key Features

- SCBA bracket.
- Standard flat pull-out command board with Lexan writing surface or Tilting Command Board with Ratchet System.
- Board Options: Lexan, magnetic dry erase or white board.

48" W x 24" D x 21" H

FC-102 | Key Features

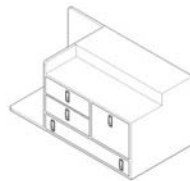

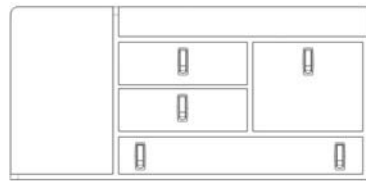

- SCBA bracket.
- File Drawer with aluminum "Pendaflex" runners.
- Standard flat pull-out command board with Lexan writing surface or Tilting Command Board with Ratchet System.
- Board Options: Lexan, magnetic dry erase or white board.

48" W x 24" D x 29" H

FC-103 | Key Features

- SCBA bracket.
- Adjustable shelf.
- File Drawer with aluminum "Pendaflex" runners.
- Standard flat pull-out command board with Lexan writing surface or Tilting Command Board with Ratchet System.
- Board Options: Lexan, magnetic dry erase or white board.

48" W x 24" D x 24" H

FC-104 | Key Features

- File drawer.
- Two parts drawers.
- Medium radio panel (does not include radios or cut-outs).
- Standard flat pull-out command board with Lexan writing surface or Tilting Command Board with Ratchet System.
- Board Options: Lexan, magnetic dry erase or white board.

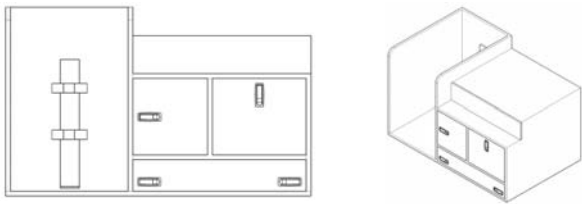

WANT THAT OEM LOOK?

We offer a variety of vehicle specific consoles that closely match the OEM trim of your vehicle. They are made from the same proven materials as our cabinet line to give you a quality look and feel.

FC-200 Series

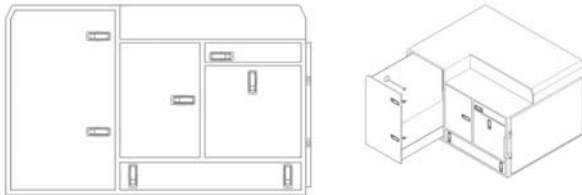

FC-200 Series Cabinets are 48" wide x 35 inches deep and fit SUVs like Tahoe, Expedition, Suburban and Yukon XL.

48" W x 35" D x 29" H

FC-201 | Key Features

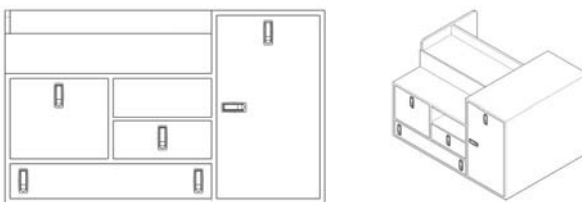

- SCBA bracket.
- File drawer with aluminum file runners.
- Medium Radio panel (does not include radios or cut-outs).
- One HDP door w/standard latch.
- Standard flat pull-out command board with Lexan writing surface or Tilting Command Board with Ratchet System.
- Board Options: Lexan, magnetic dry erase or white board.

48" W x 35" D x 29" H

FC-202 | Key Features

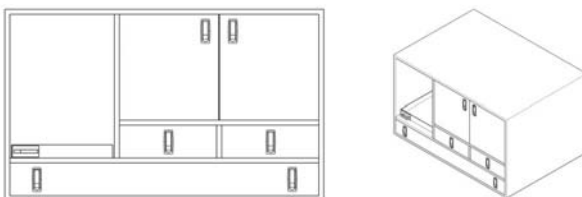

- Medium Radio panel (does not include radios or cut-outs).
- Heavy duty slide out tool tray (Left side).
- Pull-out laptop tray.
- Vertical pull-out accountability white board (right side)
- File drawer with aluminum file runners.
- HDP door w/standard latch.
- Standard flat pull-out command board with Lexan writing surface.
- Board Options: Lexan, magnetic dry erase or white board.

48" W x 35" D x 29" H

FC-203 | Key Features

- Medium Radio Panel (does not include radio or cut-outs).
- Heavy duty slide out tool tray (right side).
- File drawer with file runners.
- Small parts drawer.
- Command board with tilting ratcheting command board.
- Board Options: Lexan, magnetic dry erase or white board.

48" W x 35" D x 29" H

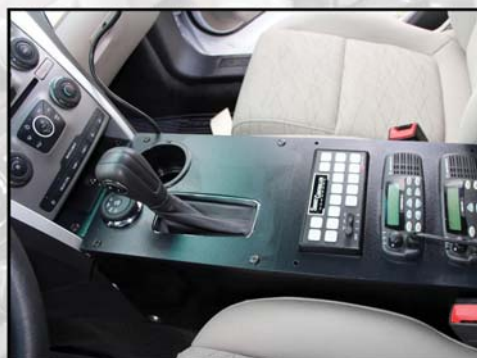

FC-204 | Key Features

- Dual door storage compartment.
- Two parts drawers.
- One heavy duty aluminum pull-out tray for tools.
- Full width Command Board Drawer.
- Board Options: Lexan, magnetic dry erase or white board.

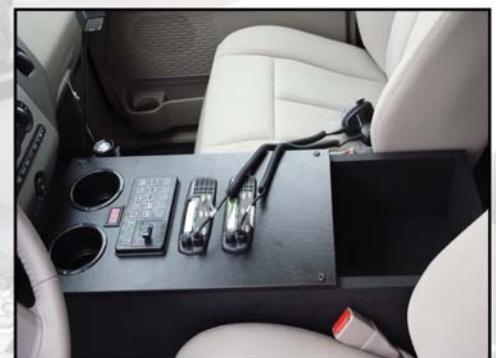

2015 Suburban / Tahoe

2015 Explorer / Interceptor

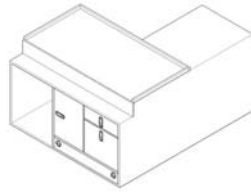

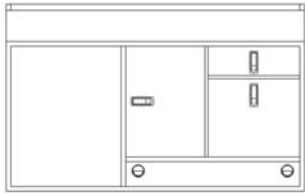

2015 Expedition / EL

FC-300 Series

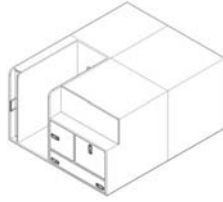

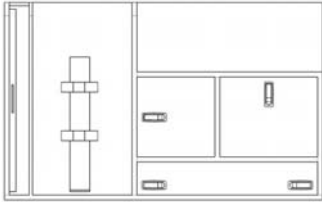

FC-300 Series Cabinets are 48" wide x 53" deep and only fit larger SUVs like Suburban, Yukon XL and Expedition EL.

48" W x 53" D x 29" H

FC-301 | Key Features

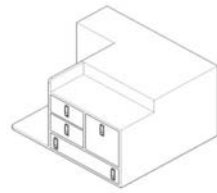

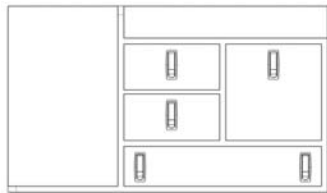

- File drawer with aluminum file runners.
- Small parts drawer.
- Full width radio panel (does not include radios or cut-outs).
- HDP door w/standard latch.
- Includes rear storage accessible through passenger doors.
- Standard flat pull-out command board with Lexan writing surface or Tilting Command Board with Ratchet System.
- Board Options: Lexan, magnetic dry erase or white board.

48" W x 53" D x 29" H

FC-302 | Key Features

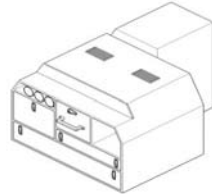

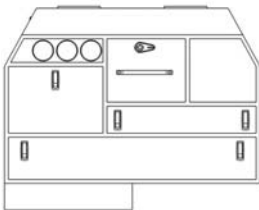

- SCBA Bracket.
- Vertical pull-out accountability white board.
- File drawer with aluminum file runners.
- Large radio panel (does not include radios or cut-outs).
- Vertical pull-out accountability white board.
- HDP door w/standard latch.
- Includes Rear storage accessible through passenger doors.
- Standard flat pull-out command board with Lexan writing surface.

48" W x 53" D x 29" H

FC-303 | Key Features

- Two parts drawers.
- File drawer with aluminum file runners.
- Medium Radio panel (does not include radios or cut-outs).
- Large open compartment for gear.
- Standard flat pull-out command board with Lexan writing surface or Tilting Command Board with Ratchet System.
- Board Options: Lexan, magnetic dry erase or white board.
- Includes rear storage w/cargo netting accessible through passenger doors.

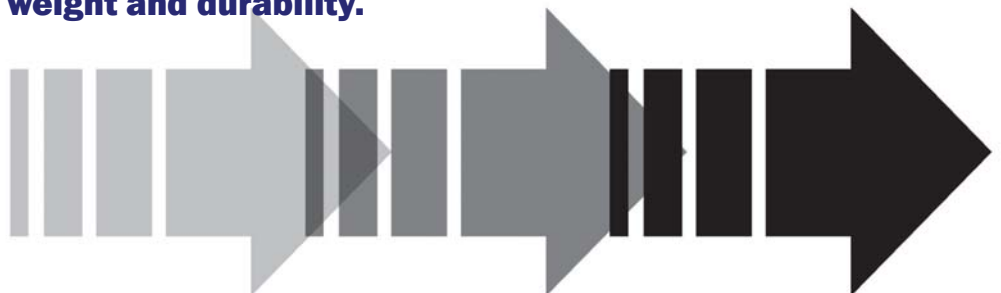

48" W x 90" D x 29" H

FC-304 | Key Features

- File drawer with aluminum file runners.
- Parts drawer with deadbolt lock.
- Full width radio panel (does not include radios or cut-outs).
- Standard flat pull-out command board with Lexan writing surface or Tilting Command Board with Ratchet System.
- Side door cabinet with shelves takes the place of the seat behind the driver.
- Large full width equipment drawer w/ heavy duty slides.

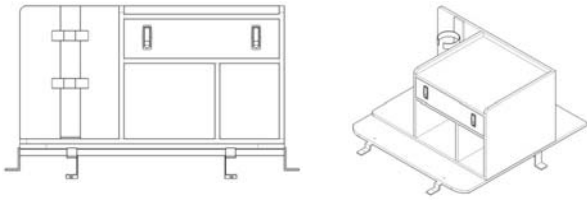

HEAVY EQUIPMENT? Let us carry it.

Nearly all of our storage cabinets can be upgraded with high capacity slides and aluminum trays for added weight and durability.

FC-400 Series

FC-400 Series Cabinets are designed specifically to fit the Ford Explorer Interceptor line of vehicles. These cabinets include a vehicle specific platform.

40" W x 24" D x 15" H

FC-401 | Key Features

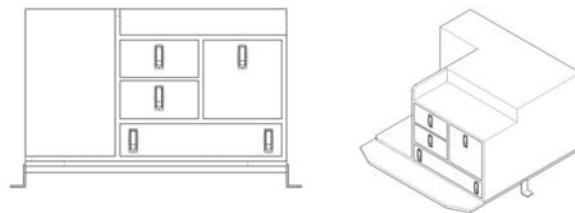

- SCBA Bracket
- Standard flat pull-out command board with Lexan writing surface or Tilting Command Board with Ratchet System.
- Board options: Lexan, magnetic dry erase or white board.
- Fixed Explorer/Interceptor Utility Platform Kit (no spare tire access).

40" W x 30" D x 26" H

FC-402 | Key Features

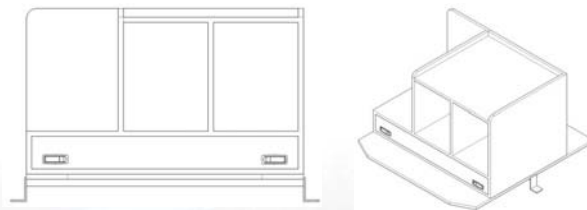

- File drawer with aluminum runners.
- Two adjustable shelves.
- Open storage area for gear (left side).
- Full width flat pull-out command board with Lexan writing surface or Tilting Command Board with Ratchet System.
- Board options: Lexan, magnetic dry erase or white board.
- Fixed Explorer/Interceptor Utility Platform Kit (no spare tire access).

40" W x 30" D x 24" H

FC-403 | Key Features

- One file drawer with aluminum runners.
- Two parts drawers.
- Medium radio panel (does not include radios or cut-outs).
- Standard flat pull-out command board with Lexan writing surface or Tilting Command Board with Ratchet System.
- Board options: Lexan, magnetic dry erase or white board.
- Open storage area for gear (left side).
- Fixed Explorer/Interceptor Utility Platform Kit (no spare tire access).

40" W x 30" D x 24" H

FC-404 | Key Features

- Open Storage compartments.
- Standard flat pull-out command board with Lexan writing surface or Tilting Command Board with Ratchet System.
- Board options: Lexan, magnetic dry erase or white board.
- Fixed Explorer/Interceptor Utility Platform Kit (no spare tire access).

TOUGHER.

SMARTER.

BETTER.

LAW ENFORCEMENT CABINETS (LC SERIES)

Our Law Enforcement storage line is aimed at giving you immediate access to all of your critical equipment during the times where seconds count. Our storage solutions range from heavy duty aluminum trays for storing pelican cases, entry tools and extrication tools to secure weapons lockers and explosives storage units.

LC-100 Series

LC-100 Series cabinets are designed to secure weapons and other tactical equipment, securely, yet still allow the driver to see over the rear cabinet.

LC-101 | Key Features

- Single drawer unit.
- Two locking compression latches per drawer.
- Drawer is laminated composite over MDO plywood with HD Ball bearing slides.
- Optional deadbolt lock, dividers, and Kaizen foam available.

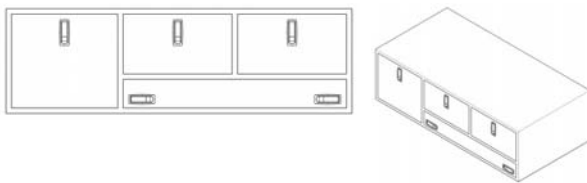

48" W x 24" D x 12" H

LC-102 | Key Features

- Two Push button combination deadbolt locks.
- Two locking compression latches per drawer.
- Drawers are aluminum with HD Ball bearing slides.
- 2" Kaizen Foam in each drawer that can be custom cut to secure your equipment.

48" W x 24" D x 15" H

LC-103 | Key Features

- One file drawer with file runners
- Two storage drawers.
- Standard flat pull-out command board with Lexan writing surface or Tilting Command Board with Ratchet System.
- Board options: Lexan, magnetic dry erase or white board.

48" W x 24" D x 15" H

LC-104 | Key Features

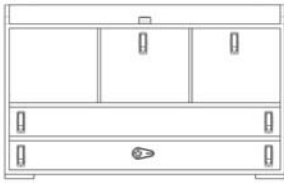

- Dual Drawer Cabinet unit with heavy duty slides.
- Locking compression latches.
- Steel support bar on top of cabinet for added durability.
- Room for equipment storage on top.

48" W x 24" D x 12" H

LC-200 Series

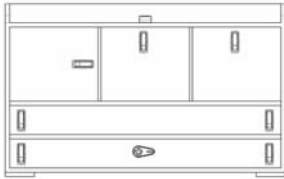

LC-200 Series cabinets are 48" wide x 35 inches deep and fit SUVs like Tahoe, Expedition, Suburban and Yukon XL.

48" W x 35" D x 29" H

LC-201 | Key Features

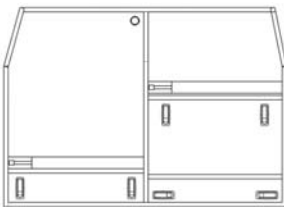

- Two file drawers with aluminum file runners.
- Cargo strap on top for gear or ballistics shield.
- One full width aluminum weapons drawer with combination dead-bolt lock and foam insert.
- One open compartment for additional storage.
- Full width flat pull-out command board with Lexan writing surface or Tilting Command Board with Ratchet System.
- Board Options: Lexan, magnetic dry erase or white board.

48" W x 35" D x 29" H

LC-202 | Key Features

- Two file drawers with aluminum file runners.
- Cargo strap on top for gear or ballistics shield.
- One full width aluminum weapons drawer with combination deadbolt lock and foam insert.
- One storage compartment with lockable door.
- Full width flat pull-out command board with Lexan writing surface or Tilting Command Board with Ratchet System.
- Board Options: Lexan, magnetic dry erase or white board.

48" W x 35" D x 32" H

LC-203 | Key Features

- Two Aluminum trays with heavy duty slides. 300 lbs per tray.
- One large storage drawer with foam insert.
- One small storage drawer.
- Standard flat pull-out command board with Lexan writing surface or Tilting Command Board with Ratchet System.
- Board Options: Lexan, magnetic dry erase or white board.

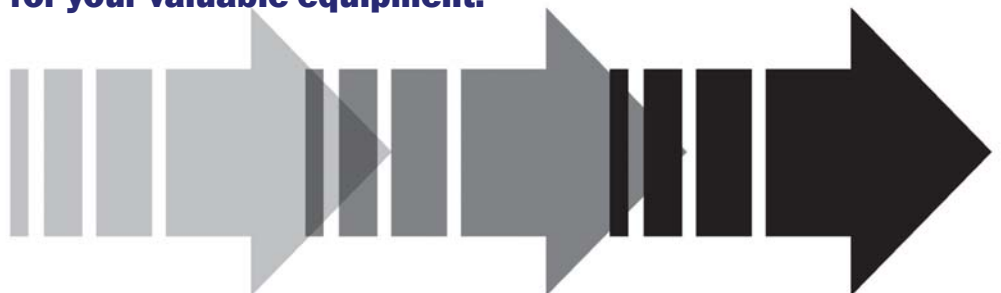

48" W x 35" D x 32" H

LC-204 | Key Features

- Total of 4 Heavy duty aluminum trays.
- Locking door left side compartment contains 2 trays .
- One storage drawer with locking compression latches.
- All drawers and trays are full depth.

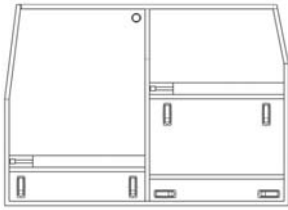

SECURITY? No Problem.

An assortment of high security locks can be added to nearly all door and drawers to give you better protection for your valuable equipment.

LC-300 Series

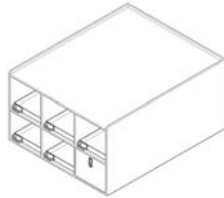

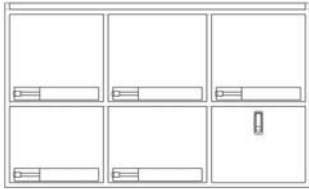

LC-300 Series cabinets are 48" wide x 53" deep and only fit larger SUVs like Suburban, Yukon XL and Expedition EL.

48" W x 53" D x 34" H

LC-301 | Key Features:

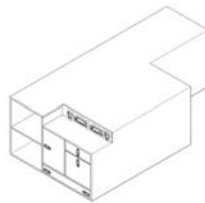

- Two Aluminum tray with heavy duty slides. 300 lbs per tray.
- One large storage drawer with foam insert.
- One small storage drawer.
- Standard flat pull-out command board with Lexan writing surface or Tilting Command Board with Ratchet System.
- Board Options: Lexan, magnetic dry erase or white board.

48" W x 53" D x 29" H

LC-302 | Key Features:

- Designed to hold large equipment like Tactical cases or CSI equipment
- Five aluminum trays with heavy duty slides. 300 lbs per tray.
- One file drawer with aluminum file runners.
- All trays and drawer are full depth.

48" W x 90" D x 29" H

LC-303 | Key Features:

- Side Door Access Storage w/shelves. Utilizes cargo area plus driver side door area. Leaves one rear passenger seat.
- File Drawer with aluminum file runners.
- Medium radio panel (does not include radios or cut-outs).

BEST OF BOTH WORLDS.

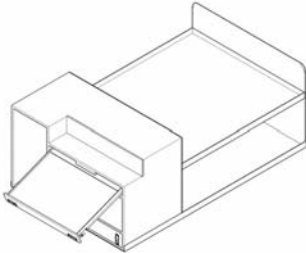

Add a sliding module with storage, electronics, command and more to your pickup truck and solve the loss of the 3/4 ton SUV chassis.

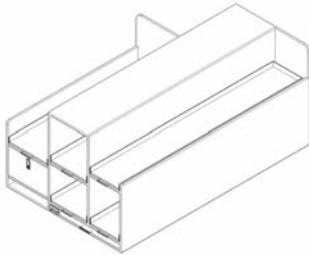

PICKUP SLIDE OUTS

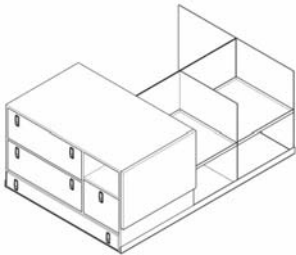

48" W x 72" D x 26" H

48" W x 72" D x 26" H

48" W x 72" D x 26" H

48" W x 72" D x 26" H

SM-100 Series designed for shorter pickup truck beds. These slide out modules have 1,000 or 2,000 pound capacity heavy duty slides with up to 100% extension available. Rugged aluminum construction, with many finishes are available.

SM-101 | Key Features:

- 1,000 lb. slide with 100% extension.
- Multiple adjustable shelves with extruded shelf track.
- Storage for longer equipment on left side.

SM-102 | Key Features:

- 1,000 lb. slide with 100% extension.
- Command cabinet on front of slide out.
- Tilt down command board.
- File drawers.
- Large adjustable height aluminum storage tray.

SM-103 | Key Features:

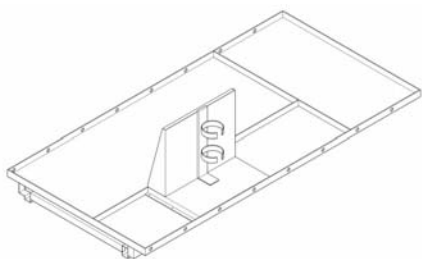

- 1,000 lb. slide with 100% extension.
- Each compartment has full length aluminum trays on HD ac-curide slides.
- Large parts drawer.
- SCBA storage area.

SM-104 | Key Features:

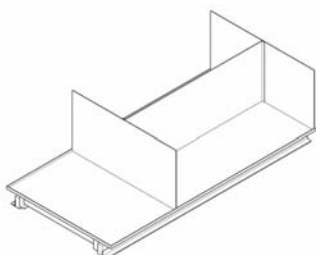

- 1,000 lb. slide with 100% extension.
- Combination aluminum storage module with MDO plywood command cabinet.
- Store gear and run command from the same system.

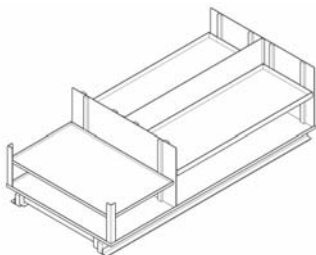

PICKUP SLIDE OUTS

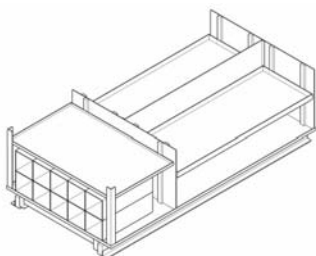

48" W x 92" D x 26" H

48" W x 92" D x 26" H

48" W x 92" D x 26" H

48" W x 92" D x 26" H

SM-200 Series designed for longer pickup truck beds. These slide out modules have 1,000 or 2,000 pound capacity heavy duty slides with up to 100% extension available. Rugged aluminum construction, with many finishes are available.

SM-201 | Key Features:

- Designed to secure a variety of equipment.
- 1,000 lb. slide with 100% extension.
- 3/16" aluminum base pan with dividers to keep cargo from shifting and tie down holes every 12 inches.
- Custom SCBA bracket and stand.

SM-202 | Key Features:

- 2,000 lb. slide with 100% extension.
- 3/16" aluminum base pan.
- Area in front designed for equipment or to install a command cabinet (sold separately).
- Center divider to keep cargo from shifting.

SM-203 | Key Features:

- 2,000 lb. slide with 100% extension.
- Similar to SM-202 but with adjustable pan shelves on extruded shelf track.

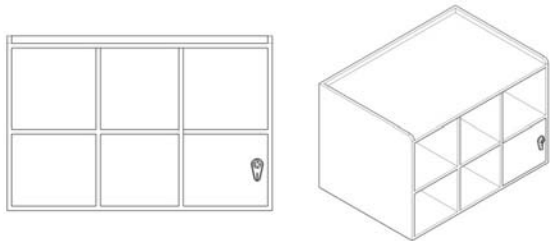

SM-204 | Key Features:

- 1,000 lb. slide with 100% extension.
- Similar to SM-203 but with SCBA cylinder storage on front of module.
- Adjustable pan shelves on extruded shelf track.

EMS Series

EMS Series Cabinets are designed specifically for agencies carrying medical equipment that needs to be kept secure, temperature controlled, and easily accessible.

48" W x 35" D x 29" H

EMS-101 | Key Features:

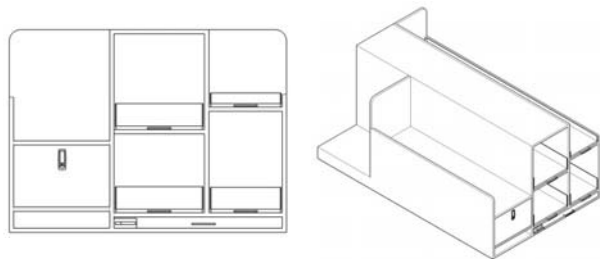

- Large storage compartments for equipment bags.
- Secure compartment with keyless deadbolt lock.

48" W x 53+ D x 29" H

EMS-201 | Key Features:

- Two-piece design.
- Rear hatch access and side door cabinet access.
- Heavy Duty slides and aluminum trays.
- Programmable Thermo-electric cooling system.

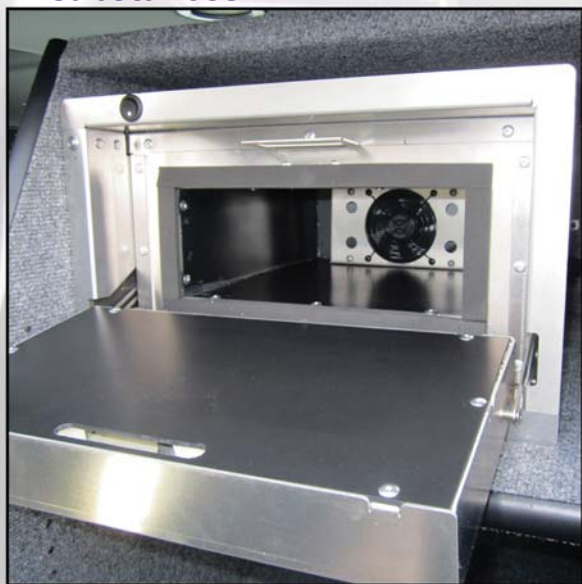

48" W x 53+ D x 29" H

EMS-301 | Key Features:

- Heavy Duty slides and aluminum trays.
- Aluminum set-up tray
- Locking full length drawer.
- Designed for Large SUV or Pickup Trucks.

WARM OR COOL. Keep your meds safe!!

Insulation and programmable thermal electric cooling options can be added to nearly any compartment. High security lock systems are also available for your controlled substances.

At First Priority we stand ready to help you design the best possible emergency vehicle solution for your department's needs. Our team has years of experience in Fire, EMS, Law Enforcement and Emergency Management. We understand the day to day challenges you face, and strive to make the design process as easy as possible. Our goal is simply to deliver a superlative, durable and cost effective product to our growing base of satisfied customers.

When it's time to design your next emergency vehicle, let our experienced sales staff show you why When lives are on the line, Your emergency vehicle should be First Priority!

WE CAN SHIP TO YOU!
